

# Teaching Sustainability across the Curriculum

Photos courtesy of Penn State Department of Public Information

The purpose of this series of events is to explore teaching and assessment strategies that will engage students in addressing real-world problems related to environmental sustainability. An additional aim is to disseminate these strategies broadly across disciplines so as to infuse curricula and provide all Penn State graduates some level of literacy with respect to environmentally sustainable principles and practices.

## Sponsored by the Schreyer Institute for Teaching Excellence

Go to [www.schreyerinstitute.psu.edu/Sustainability/](http://www.schreyerinstitute.psu.edu/Sustainability/) for details and to register.
